TACTICAL COMPUTING

RUGGED | RELIABLE | READY FOR ANY MISSION

Rugged Portable Displays

Raven Tactical's range of portable displays allow a multitude of configurations from portable KVM systems to our high resolution 4k single and portable screens, all built to MIL-STDs and built in the USA.

MGP Series Rugged KVM Display/Monitor

Our KVM Rugged Monitor Keyboard and Mouse looks like a laptop but is just the Monitor and Keyboard/Mouse in a rugged Milled Aluminum Platform for Ship Board or Ground Mobile applications, with MILSPEC Connectors and High Bright Daylight Readable 461 MIL Spec Complaint Screen and Rugged Water Sealed IP65 keyboard.

MMR Series High-Resolution Rugged Display

When resolution is everything, we don't compromise. Our rugged MMR 4k Panels let you take your desktop with you. With single, dual, and triple monitor configurations, the MMR-U (Ultra Series) sets the new standard in rugged Displays and Monitor Systems. It features native 4k panels that can be high-bright to over 1000 NITS, optically bonded, and configured with P-CAP Touchscreens.

Our MMR 10.1, 15.6, 17.3 and 21.5 inch High Bright Single Screen Panel Solution is our top-of-the-line class in the MMR Series. The unit is ideal for outdoor applications and comes with carrying case, rugged handle and with options for battery, kickstand or yoke mount.

About Us

Raven Tactical Computing has over 40 years' experience in the use, design, development and manufacturing of defense and industrial computing hardware solutions. With a defense pedigree born out of actual experience and the use of the technology in combat environments, we understand our customers and their expectations when it comes to real world environments. Our manufacturing is vertically integrated, from the metal on up, we design and manufacture in-house to assure quality and speed of delivery.
